

RE: Environmental Improvements at InterContinental Maldives Maamunagau Resort

Dear Valued Partners,

Greetings from InterContinental Maldives Maamunagau Resort!

Thank you for your ongoing support throughout our opening and we look forward to growing our relationship together as we embark on an exciting new transformation at the resort. As we continue to create exceptional experiences for our guests, InterContinental Maldives Maamunagau Resort will undergo enhancements in stages, during the summer months to come. We have thoughtfully planned these enhancements to ensure our guest experience remains uncompromised.

In collaboration with our Resident Marine Biologists and in our continued efforts to preserve our sanctuary, we will be embarking on a journey to transplant coral in our internal lagoon that is surrounded by our Lagoon Villas. This will create a natural habit for coral to thrive in our coral nursery as we further support and conserve marine life. In stages, these pieces will then be transplanted to our active House Reef for a greater guest experience.

In addition, the placement of shore protection on the main beach will reduce the frequency of sand pumping by up to half and as such, reducing the disruption to marine life.

July 2022

We will be closing the Main Beach and Pool as well as the Pool Bar and Café Umi - our all-day-dining restaurant. To ensure that our guest experience is uninterrupted, we will be setting up Light House Beach as our Main Beach, with Bar and Restaurant orders available during the day.

The Retreat and The Retreat Pool will be open to all our guests, and we will also be serving daily Breakfast and Lunch here. The Light House will be open daily for Lunch and Dinner and The Fish Market for dinner.

Rest assured, all offerings will be in place, we are only allocating alternative areas for them. We will not be closing any of our Villas or Residences during this period; however, we will ensure to look at booking allocations so that impact on our guest experience is minimal

LOCATION	STATUS
Main Beach, Pool, Pool Bar	Closed
The Retreat	Open for Adults & Children
Café Umi	Closed
Light House	Lunch & Dinner
Fish Market	Dinner

August & September 2022

As we open our Main Beach, Pool and Pool Bar as well as Café Umi, we will then close The Retreat Bar and Pool, as well as all our Lagoon Villas and Lagoon Residences while we improve the environment of our internal Lagoon during this period.

LOCATION	STATUS
Main Beach, Pool, Pool Bar	Open
The Retreat	Closed
Café Umi	Open
Light House	Dinner
Fish Market	Dinner
Lagoon Villas & Residences	Closed
Over Water Villa & Residences	Full inventory available
Beach Villas & Residences	Full inventory available

Rest assured, our team will attend to all reservations personally and the utmost care will be extended to each booking. For any queries relating to existing reservations, we would appreciate that you reach out to us directly to discuss.
