

Dear Valuable Partner,

We are delighted to officially announce the upcoming upgrading project of Banyan Tree Vabbinfaru, North Male Atoll - Maldives.

The upgrading project is taking place this summer, from 1 July to 30 September 2022 and will see Banyan Tree Vabbinfaru unveil the following updated facilities for Winter Season 2022/23:

- All Villas interiors will be refreshed as well as the outdoor deck and bamboo fencing will be changed and upgraded
- Some of the Villas will be redeveloped to feature a new living room area and additional bathroom in their private front beach
- Upgrade of the sunset jetty with a new beachfront infinity pool

During the upgrading project, every possible effort will be made to minimise any negative impact upon guest experience and there will be no disruption to the normal daily resort activities.

Villas will be refurbished in groups and as an extra precaution, guests will be located in villas on the opposite side of the island to the group of villas being converted at any particular time.

Should you have any questions or concerns regarding the refurbishments works that will be taking place, please address these to me and I will happily be delighted to assist. I can be contacted by e-mail at taisya.panfilova@banyantree.com.

We look forward to working with you in the coming months as we work to re-launch the newly updated Banyan Tree Vabbinfaru and thank you in advance for your support.

Best regards,

Taisia Panfilova
Sales Manager - (Russia & CIS)
